'63 Poll Taxes At Record Top

J. O. PARKER

Election Scheduled

The president of the Canyon Independent School District board, J. O. Parker of Canyon, will seek re-election to the board this year.

Parker, who is completing his third term, filed notice of his candidacy this week with Huelyn W. Laycock, superintendent of schools. He is a farmer and operator of a feed-lot near Wayside.

The school board election will be held April 4 in the American Legion Hall in Canyon. Voting will begin at 8 a.m. and end at 7 p.m. Voting machines are not used in school elections.

Deadline for filing for a place on the ballot is March 4. Parker is one of two members of the board whose terms expire this year.

The other member is Dr. Charles Nester, who has not yet announced his plans.

Rogers Reports:

Canyon PO Given Citation For Merit

The Canyon Post Office has been selected to receive the Postmaster General's Citation of Excellence.

The award is to be given for outstanding maintenance and care of the post office here.

The Canyon News was notified of the award Wednesday morning in a telephone call from Cong. Walter Rogers.

Postmaster General John Gronowski pointed out that the award is made on recommendation of the assistant postmaster general in charge of facilities.

Only installations which have received superior ratings in a rigid inspection are even considered for the award.

The award is based on the following factors: (1) naturally attractive grounds, (2) clean, bright lobbies, (3) well kept walls and other physical surroundings, and (4) removal of hazards to safety.

Randall GOP For Goldwater

Randall County Republicans have cast their lot with Senator Barry Goldwater.

Chairman of Randall County Republican Party is John Kenahan of Amarillo.

The committee pledged itself to work for the nomination of the senator for President of the United States.

The decision was reached by the party at a meeting held Monday night in Canyon.

Randall County has set a new record for paid poll taxes.

As of deadline at midnight Jan. 31, a total of 12,760 receipts had been issued in the county, including the South Amarillo area, according to Bill Money, tax assessor-collector.

"This is a new record--the biggest business we've ever had," he said.

In addition to the paid taxes, a total of between 800 and 1,000 over-age exemption certificates--needed by senior citizens who live or vote in South Amarillo--had been issued by deadline.

Money attributed the record collection to a last-minute outburst of political interest in South Amarillo, and to the strategic location of substations and individual collectors throughout the county. He also noted an increase in poll tax payments by mail, as compared with past years.

Money also said he has been officially notified that the U. S. constitutional amendment abolishing the poll tax in elections involving candidates for federal office has become effective.

Voting certificates will be issued without charge to persons who apply for them at the courthouse here at any time through March 6.

The certificates can be used only to vote in elections involving U. S. senators, U. S. representatives, the President and Vice-President. They are invalid for voting in state, county, school and city elections and in any special elections on the local level.

As of Wednesday, no persons had yet applied for the free certificates, Money said.

Head Count For Schools Shows Gain

Unofficial results of the recent school census indicate a total of 2,167 school-age children in the Canyon Independent School District, reports Supt. Huelyn W. Laycock.

This is a gain of 204, or a little more than 10 per cent, over the 1,963 children counted in the 6-18 age group at the same time last year.

Laycock said 1,949 children were enrolled in Canyon public schools as of last Jan. 16.

"If the same conditions exist--if the enrollment remains in the same ratio to the census--then we may expect to gain about 200 pupils this year," he said.

The superintendent said it is "too early" to predict what effect the gain will have on existing facilities, since the census results have not yet been analyzed.

He said a detailed report on the head count would probably be completed in two or three weeks.

ARCHIE DAVIS, supervisor of street maintenance in Canyon, looks at some of the snow and ice damage to city streets in the wake of last week's near-record snowfall. Full extent of damage will not be known for several days yet.

Randall, Potter Polls To Open At Same Time

Opening time for Randall County voting places in South Amarillo has been changed to conform to the Potter County schedule.

County commissioners Monday ordered that voting places in Randall County open at 8 a.m. in elections involving only the City of Canyon, the Canyon Independent School District or the Umbarger Common School District.

As a result of recent legislation, the order has the effect of allowing Randall County voting places in South Amarillo to open at 7 a.m. in county, state, and general elections, conforming to practice in the rest of Amarillo.

The order also allows South Amarillo voting places to open at 7 a.m. for elections involving only the City of Amarillo and the Amarillo Independent School District.

The change was ordered to eliminate confusion that has occurred in the past when Randall County voting places opened an hour later than other voting places in Amarillo.

The order does not affect the closing time, which will remain 7 p.m.

In other business at the Monday session, commissioners authorized Commissioner Glenn Dowlen of Precinct 3 to sell at auction the present site of the precinct bar, including improvements. The property consists of three acres of land, a house and barn, and is located about an eighth of a mile north of the northwest corner of the Happy townsite.

Dowlen said disposal of the property will allow construction of new barn facilities closer to Canyon and central to the Precinct 3 area.

Commissioner Bill Butler of Precinct 4 also sought authority to sell a wedge-shaped tract of approximately 800 square feet of county land located at the

rear of the courthouse annex in South Amarillo. Butlersaid the tract is too narrow for effective use.

Commissioner Dowlen supported the motion, but commissioners B. R. Jones and Clarence Beckman opposed it. County Judge Wayland Angel cast the deciding vote in favor of Butler's proposal.

The court also accepted bids on diesel fuel and gasoline in bulk. Mobil Oil Co. submitted the low bid of 10.84 cents per gallon for diesel fuel for precincts 1 and 4. Phillips Petroleum Co. low bid of 11 cents was accepted for Precinct 3. Diesel fuel for Precinct 2 will be obtained on a basis of convenience from Mobil Oil Co. and

Umbarger Farm Supply, which submitted a bid of 11 cents.

Accepted gasoline bids included Precinct 1, premium, Griffin's Truck Stop, 15.63; Precinct 2, regular, Umbarger Farm Supply, 13.15; Precinct 3, regular, Phillips Petroleum Co., 13.15; Precinct 4, premium, Mobil Oil Co., 15.44.

The court tabled for study a tentative plan to install an elevator in Randall County courthouse for the convenience of elderly and physically handicapped persons.

As outlined by a representative of Esco Elevators, Inc., installation of an elevator capable of carrying 12 persons or 1,800 pounds would be about \$19,000.

Streets, Roads Damaged

Ice Bill Grows In Storm Wake

Livestock loss in Randall County as a result of last week's snowstorm appeared to be minor--but there was growing evidence this week that the county and the city of Canyon face substantial road and street repair bills.

In addition, the tab for special equipment for snow removal in some county areas is expected to run to four figures.

"There's no question everybody's got damage to roads," said Commissioner Clarence Beckman of Precinct 2, "but we'll have to wait for them to dry out before we have any idea of how much damage."

Earlier this week, some rural roads remained under snow, or had been cleared only enough to permit passage of vehicles in single file.

Beckman pointed out that in some places dirt shoulders on the roads have been softened or undermined, with resultant damage to topping, and that several days of alternate thawing and freezing can be expected to cause further damage.

Referring to use of extra equipment to clear roads in Precinct 1, Commissioner B. R. Jones said he expected costs would be substantial, but he declined to make an estimate.

"All I can say is that the bill will probably be bigger than in any of the other precincts," he said.

Inside Canyon city limits, snow and ice damage appeared

to be limited immediately after the storm, but since then has been growing daily as a result of alternate thawing and freezing.

"We're going to have some damage, and it looks like it's going to be worse than we first thought it would be," said Dewey Bryant, city manager. "Some of our streets without curb and gutter are being damaged more each day as water seeps under them and freezes at night. I'd say we're facing a substantial repair bill."

As compared with these predictions, a report on livestock

and crops in the wake of the storm was positive and reassuring.

"Everything is in pretty good shape," said John Brazzil, county agricultural agent. "A few new calves may have been lost, but it seems that farmers were able to get to their animals before much damage was done. Our situation here was nothing like all the trouble they had on the North Plains."

"I'd say most wheat fields held at least seven inches of snow on the ground, with anywhere from .75 of an inch to a full inch of moisture," he said.

Plans Readied In Fund Drive

A kick-off meeting for the Canyon Heart Fund drive is scheduled Thursday, Feb. 20, in the Commissioners Court Room.

Clark Jarnagin, association president, set the meeting for 7:30 p.m. Thursday and all persons interested in combating heart disease are invited to attend.

Dr. Manly Bryan will be in charge of the program. Mr. C. W. Nickerson, area consultant of the Texas Heart Association will attend the meeting to answer questions pertaining to the annual drive.

February has been designated as Heart Month and the local

organization has picked Sunday, Feb. 23 as Heart Sunday. Boy Scouts will begin a door-to-door campaign at 1:30 p.m. Sunday asking for donations to the Heart Fund.

Letters will also be sent to Randall County residents explaining the Heart Fund Raising campaign. Donations to this year's fund will be dedicated to 25 persons who died last year in Randall County of heart disease.

A special show will be presented to students of the Canyon elementary school Saturday morning, Feb. 22.

The show, "Drums of Africa" will begin at 10 a.m., and parents will be able to pick their children up at 11:40 a.m. Admission to the show will be a special Heart Fund drive envelope with each student's donation enclosed.

"No one will be turned away but this will give the children an opportunity to have a part in this very worthwhile cause," Jarnagin said.

Persons attending the Thursday meeting will discuss a possible coffee day, and plans to distribute coin containers to businesses in Canyon will be discussed.

Hospital Care For Prisoner

Randall County commissioners Monday authorized Sheriff L. S. (Slim) Johnston to provide hospital facilities and arrange for additional personnel for Mrs. Ella Mae Binning, who is expecting birth of a child early in May.

Mrs. Binning, 25, is being held in Randall County jail without bail on murder charges in connection with the Dec. 14, 1963, death of her 5-year-old son, Marcus Dewayne Binning. The indictment against Mrs. Binning alleges Marcus Dewayne died of injuries suffered in a beating.

Trial had been continued until after Mrs. Binning's child is born.

Sheriff Johnston said Mrs. Binning is in the care of a physician, but will remain in jail until the doctor orders her to be transferred to a hospital.

Johnston said supervision of Mrs. Binning while she is in the hospital will require the services of a deputy sheriff and two woman deputies.

The annual World Day of Prayer is being sponsored by the United Churchwomen of Canyon. (See story, page 5).

City Budget Reflects Growth Of Canyon

Members of the Canyon city commission Monday began discussion of a 1964-65 budget which reflects a continuing growth of this community and area.

City Manager Dewey Bryant said the budget in its final form will probably be up about 7 per cent over the current budget of approximately \$382,000.

Specific budget items were not available this week as commissioners continued to study

separate departmental budgets and to suggest changes and amendments. But Bryant indicated that at least one major item under discussion is a \$10,000 appropriation for a new city water well.

"It is not known yet whether we'll want to go ahead with the well this year," he said, "but the commission might want to appropriate the money and let it carry over into next year if

need for the well doesn't arise."

Bryant said commissioners also are studying a "longevity program" as a basis for regular salary increases for long-term employees. No decision has so far been reached, he said.

The commission may meet in special session next week to complete work on the budget, but no date had been set as of Wednesday afternoon. Should the meeting be postponed, the

study will be finished at the next regular meeting on Feb. 24.

In a budget report as of Jan. 31, city revenues in 1964-65 are estimated at \$393,333.

"In my opinion, this is extremely conservative," Bryant said.

Reflecting city income for a 10-month period, the Jan. 31 report also noted a surplus of approximately \$27,000 over estimated revenues for the per-

iod.

In other business the commission favored the request of Bill Taylor to explore the possibility of providing taxi service in Canyon.

Taylor, who operates a package delivery service here, met with the commission to discuss regulations pertaining to passenger carriers. He said he was interested in providing taxi service under an appropriate

city license or franchise.

"I think Canyon is large enough now to support a cab service," he said.

"It would certainly serve a need," Commissioner Paul Lindsey said. "It's something we've needed for a long time."

"I think we ought to have it on a franchise basis, for the operator's own protection," Commissioner George Ritter said.

Search turned up a 1951 ordinance regulating taxi service in Canyon, but commissioners agreed the old law would have to be updated. The city manager was instructed to check the city charter for licensing and franchise provisions and Taylor was invited to meet with the commission at the next regular session.

The commission approved on first reading ordinances restrict-

ing a recently annexed tract to residential development and officially designating a one-way alley running west between Eighth and Ninth Avenues and 22nd and 23rd streets.

The alley had been signed as one-way but never so designated by ordinance. The oversight was discovered recently when a motorist contested a traffic ticket issued for going the wrong way on a one-way street.

Hilltop Views

J. Edgar Hoover, one of the greatest Americans of this generation, warns the people of this country with increasing frequency that our crime rate is rising with alarming rapidity. If the present rate of increase continues very long we shall come face to face with anarchy. If and when that day comes our free republic will necessarily become a dictatorship and all our freedoms will fly out the window.

As an example of the prevalence of crime your attention is called to the situation in Dallas as reported in the Dallas News of Feb. 2. At the first meeting of the Dallas Crime Commission since the assassination of President Kennedy, the President of that body, John McKee, revealed an almost unbelievable situation. At the same time he was plainly trying to keep from confirming evil reports growing out of the assassination tragedy.

Here are some of the things he said, in substance.

In a 2 month period, 137 pistol cases--arrests for illegal possession of pistols were taken before the Criminal Courts. Of these violators of the law only 28 per cent were sent to jail, 60 per cent were fined, and 11 per cent dismissed.

He said: "The high number of such cases may account for so many people getting killed and may be why Dallas ranks eighth in the number of murders among all U. S. cities."

He was further credited with saying that the city had 502,000 arrests last year and that public apathy and "utter disregard for the law were the main causes for the rising crime rate." He did not think the police or the courts were at fault.

According to the President of the Crime Commission, of more than 200 murders last year the grand jury no-billed 86 of the accused.

"Any time you have a half million people arrested I think it gives us something to think about," Mr. McKee declared. I should think so myself.

According to the Dallas News story the President of the Commission noted an increase of 2448 major crimes during 1963. He said there were 35,854 murders, rapes, burglaries, robberies and other major crimes last year, including an increase from 118 murders in 1962 to 183 in 1963.

"He also noticed increased activity in gambling, prostitution, narcotics and juvenile offenses," said the Dallas News.

It is not the purpose here to add anything to the wide-spread opinion that Dallas had a major part in the Kennedy tragedy. As stated formerly in this column it is our conviction that Dallas is no worse than dozens of not hundreds of other communities; and therein is the fearsome fact that J. Edgar Hoover so consistently warns us about. If there are dozens, if not hundreds of cities and towns in this country whose crime record is comparable per capita to that of Dallas it is certainly high time that everyone who values his life and liberty should be making himself felt on the side of law and order and common decency.

Circle K Continues Painting

Members of the Circle K are in a reorganization phase this week with the beginning of the new semester at West Texas State University.

Jim Allison, president, said the group plans to take in at least 15 new members during the next several weeks.

Allison also said the club's curb painting project will continue through the next several weeks. The club is also working on a scrapbook to enter in state competition.

The scrapbook will be taken to the district convention in April and will be in competition with scrapbooks entered by clubs throughout Texas.

"We hope to return after the convention with the travel trophy and the scrapbook trophy," Allison commented.

The local Circle K club will support a candidate for lieutenant governor and a candidate for governor from Region 7 at the annual convention, Allison pointed out.

MEANDERING WITH MARGO

We are anxious to see the final production of the Canyon High School musical "Calamity Jane", which will be presented Thursday and Saturday nights in the high school auditorium.

The two-hour play is being directed by Gene Murray with Mrs. Lee Foster handling the costumes and publicity.

Kids have put in long hours of rehearsing on the show, and from brief periods of eavesdropping we believe it will be a huge success.

Members of the band and choir at CHS have suddenly appeared from out of every corner. They are trying to figure out ways to make a dime, quarter or dollar in order to attend the Tri-State Music Festival in Enid, Oklahoma later in the

The News is planning to publish a special historical edition this summer which will relate tales and stories of the early pioneers in the Panhandle.

This edition will only be a success if we have the help of you folks who have pictures and stories. We want to know what life in Canyon was really like and we want to have pictures in order to show phases of life in the early days.

Our object is to write an authentic history of Canyon and the Golden Spread and we can only do this through your help.

We would appreciate any help you can give to us. Call us if you know of a person who could give facts pertaining to Canyon's Childhood.

We hope to begin work on this edition in April or May and we send out a request for you to begin thinking about Canyon and looking for pictures and old articles.

Funeral directors have had a lot of bad publicity in recent weeks from national magazines and news stories.

We think it's time someone came to the defense of our local funeral director.

Probably the most important service Jerry LaGrone furnishes Canyon is ambulance service. There is no way to determine the number of lives his well-equipped ambulances save in transporting sick and injured to hospitals.

We do not know of a funeral home that breaks even on ambulance service. To provide this service for Canyon, Jerry must keep at least one and sometimes two on 24-hour call.

We seriously doubt that ambulance fees collected will defray the cost of laundry for stretcher bedding which must be changed after each use.

Dreamland Cemetery is one of the most beautiful cemeteries in the country. This is due to the care given it under supervision of the local funeral directors.

During the relatively short time he has been in Canyon, Jerry has served as president of the Chamber of Commerce, president of the Rotary Club, on the board of the Panhandle Heritage Foundation and with various other groups working for the betterment of the community.

We notice that the stock of Robert Kennedy for vice-president is rising. We know conservatives all over the country are praying that Bobby will be LBJ's running mate.

It will be hard for Lyndon to sell RFK even in Texas, much less other Southern states.

If anyone in Texas can give Ralph Yarborough a run for his money for the US Senate it will be Robert Morris of Dallas who is running for the Republican nomination for that office.

Morris has an impeccable reputation as an attorney and man of government.

Yarborough has brought little prestige to his state during his tenure in the Senate. He makes a poor appearance on television and an even poorer one when he addresses a group in person.

Television does little for President Johnson. We're sure he will use it as little as possible in the upcoming campaign. Even then we don't see how he can avoid using it a great deal.

TV is simply a must for a candidate bent on achieving a desired togetherness with the rank and file voter.

We had a demonstration a couple of weeks ago on how big government can and often

Jaycee Election Tuesday

Canyon Jaycees will have a "political rally" preceding their officer election at the regular business meeting on Tuesday, Feb. 18.

Vying for the presidential office are Richard Pruett and Charles Marshall.

Other officer contests will be between Doug Rittenberry and Nick Dodson for first vice president; Odell LaGrone and Meade Michael, for second vice president; Delbert Turk and Allen Parson, for treasurer; and Jerry Swearingen and Roy Fortune, for secretary.

Candidates will be allotted equal time for their campaign speeches according to Richard Pruett, current Jaycee president.

The election, by secret ballot, will follow the rally and all members of the organization are urged to be present for the

meeting which will be held at 7:30 p.m. in the Spudnut Shop. A formal installation of officers will be held in conjunction with the annual Jaycee Banquet to be held March 14.

Indians Use Charity Tosses To Down Buffs

Midwestern's Indians took advantage of West Texas State's tight defensive tactics to drop the Buffaloes, 71-60, at Wichita Falls Monday.

In the waning minutes, Midwestern upped its percentage from the free throw line by chipping in 10 of 12 attempts. This enabled the Indians to take their second win over the Buffs this season. Midwestern outlasted the Buffs, 89-82, in the first encounter.

West Texas travels to Bartlesville to take on a potent Phillips 66 squad Friday. Another toughie will be waiting for the Buffs at Oklahoma City Saturday. Oklahoma City University will test the Buffs in that battle.

Midwestern jumped to an eight point lead early in the contest. But an inspired Buffalo herd fought back to take a 14-13 lead with 12:10 remaining in the first half. The teams swapped baskets and it was the last time for the Buffs to lead.

West Texas' longest streak of the season was broken by the loss. The Buffs beat Eastern New Mexico and McMurry in weekend action for a two game streak. It was their longest win skein of the season.

Coach Jimmy Vramontes Buffs will carry a 9-9 mark into the contest with Phillips 66 Friday.

Republican Candidate Says 1964 May Be Most Important In History

BY MARGO WILLIAMS

"This year may be our last chance."

Robert Morris, Republican candidate for the United States Senate, cast a dim view for the future if Republicans do not triumph in the 1964 elections.

Morris, Dallas author, educator and attorney, spoke to a group of 25 persons Saturday morning at a Young Republican sponsored breakfast.

"1964 may well be the last chance for those of us who support a constitutional government."

"As we see plans of people in Washington unfold, and as we see what these people have in store for us we realize our great civilization may be going to ruins as have those in the past," Morris said.

The tall, heavy built candidate outlined the four areas where America has been strong in the past but seems to be losing ground in our present day politics.

The free enterprise system has been the backbone of the United States, according to Morris.

"What has been the greatest enemy of poverty? The free enterprise system has been."

"Government doesn't make jobs. The government can pay salaries to someone who watches over us, but this is not a job."

"The only way a new job can be made is when Man creates or expands a business," he continued.

Morris pointed out that the national debt, when military pension plans, civil services pension plans and veteran pension plans are included, now reaches \$1 trillion.

"There has to be a day of reckoning. We are going to have to balance our budget and stop spending more than we have," he blasted.

The second field which Morris believed is causing a loss in the "American idea" was the weakening of the religious and spiritual fiber of the American heritage.

"If we are realistic, what is the real basis of our politics? Read the Declaration of Independence and you will find we do have a religious and spiritual foundation," Morris said.

Morris pointed out several cases where the Supreme Court appeared to be destroying the American concept of religion.

"The Supreme Court has said that a simple non-denominational prayer can not be said in the schools. The United States has a background of religious and spiritual beliefs and I think it is wrong to say a prayer is unconstitutional," he said.

Commonlaw heritage was the third point which brought comment from Morris.

In explaining his concern over the common law heritage in the U. S., Morris dwelt on the Loren and Mervin Gajewski case.

The Gajewski brothers were accused of exceeding the wheat allotments for their land in North Dakota in 1959. They had received no notices until that time of their allotments.

"They were charged with conspiring against the Agricultural Adjustment Act because they had not abided by allotments from 1954 to 1957. They had never received any word of these allotments," Morris pointed out.

"Attorneys for the Federal Government said the files of the Gajewski brothers had been lost, but contended Loren Gajewski was responsible for his allotments," he continued.

"Today (Feb. 9) the Gajewski brothers began a two year prison sentence for over planting on their land. These men should be given a medal for producing grain."

His final point of concern for the United States was the overall threat of world communism.

He pointed out the workings of the State Department in dealing with Fidel Castro of Cuba.

"The State Department kept saying everything was okay in Cuba. Castro, being a Communist, kept acting like a Communist, but the people in the State Department said that Cuba posed no threat to the U. S.," Morris said.

"They told us two years ago that it was not a military question but only a political one. In June of 1962 a Cuban sea captain told of all the Russian military equipment which was being moved into Cuba."

"Reports were heard of troops being moved into Cuba, but the people in the State Department said they were only technicians. And then came reports of missiles on the small island south of the U. S."

"This time the State Department said they were defensive missiles and not offensive. By this time there was a firm Soviet base on our door-step," Morris said.

The Republican candidate said the State Department is eager to ignore the threat of Communism.

"Five years from now may be too late for those of us who want to preserve our American heritage. This is a critical year and we must act now," Morris said.

Morris asked for support from the group attending the breakfast and emphasized that to win in 1964, Republicans must get facts to the people.

"Don't tell people your conclusions. Just tell them the facts and they will draw their own conclusions," Morris explained.

In answering a question concerning how much power would be needed in the Federal Government to carry out the idea proposed by Morris, the candidate said only six appointments would have to be made.

"The first appointment would be the under secretary of state for the Administration. He appoints all the ambassadors and sends them to the various countries."

"The second one would be the under secretary of state in charge of economic affairs. This man runs the ICA and makes the decisions about who gets money."

"The third appointment would be the head of the National Security Agency. He is director of planners and planning."

"Head of operations of the CIA would be the fourth appointment and the head of the United States Information Service would be the fifth man named."

"The sixth man would be the one in the White House: The President of the United States who would appoint the other five."

Kerry Knorpp, president of the Canyon Young Republicans, was named as head of Morris' campaign in this area.

With Morris on his swing through the Panhandle area was A. Hardcastle, campaign associate of the author and lawyer.

Cub Scouting

Meetings for a majority of the Cub Scout Dens were cancelled last week due to the inclement weather conditions.

A special two-hour session was held for Cub Scouts of Den 4, Pack 31, last Friday afternoon at the home of Mrs. L. D. Hunnicutt, den mother.

The boys worked on an elective requirement for their arrow points at the meeting. They wrote "secret messages" to their parents listing a job that they would do such as wash the dishes, carry out trash, shovel snow off of the walk, etc.

Written in lemon juice, the secret messages were to be deciphered by holding the paper over heat.

The boys spent part of the afternoon meeting completing the table centerpiece for the Blue and Gold Banquet which will be held this week. They also completed place cards for the annual affair.

Refreshments of heart shaped valentine cookies and valentine theme favors were brought by Ronnie Branum. Present for the meeting were John Boone, Bobby Boyett, Ronnie Branum, Larry Hunnicutt, David May and the den chief, Mike Branum.

The special field trip and tour of Amarillo Air Force Base which was planned for Saturday, Feb. 8th, was cancelled by Dens of Pack 97 due to the weather conditions.

Mrs. Douglas Rittenberry, den mother of Den 1, said this week that the special event will be re-scheduled for a later date.

Den 5 of Pack 131 held their regular den meeting Monday afternoon at the home of Mrs. Mack White with 10 cubs attending.

The boys devoted the meeting to completing rocket centerpieces and name tags for the upcoming Cub Scout banquet.

Following the meeting they were served chocolate hearts, in the traditional valentine theme.

Dates Cause Humorous Sideline

Gene Root scratched his head as he laughed about an unusual coincidence which occurred in his family this week.

Tuesday, Feb. 11, was the birthday of two of his sons-in-law. One, Jim Richardson of Amarillo, was born in 1926. Tuesday was his 38th birthday.

Charles Boston of Odessa was born in 1938 and he celebrated his 26th birthday Tuesday.

"Not too often birth dates and birthday numbers are switched like this," Rott said.

Richardson and his wife Ellen have two boys and one daughter. Nancy and Charles Boston have two daughters.

Mr. and Mrs. J. E. Osborn of Sunray were guests in the home of his parents, W. C. Osborn, Sr., last Sunday afternoon.

Final Plans Made For World Day Of Prayer

The World Day of Prayer will be observed on Friday, Feb. 14, at the First Presbyterian Church of Canyon with all Canyon residents, men, women and children, urged to participate.

Dr. J. A. Hill, president emeritus of West Texas State University, will present the morning meditation on the need for all people of the world to pray together on the same day every year. Dr. Hill, well-known for his cogent remarks in "Hilltop Views", will be the featured speaker for the Day of Prayer service beginning at 10:00 a.m.

Other prayer sessions throughout the day will be presented by Mrs. George deSchweinitz, Mrs. W. A. Moore, Mrs. Ross Russell, Mrs. L. H. Brotherton, Mrs. Marion Higdon, Mrs. Glenn Gardner, Mrs. R. C. Bussted, and Mrs. G. A. Colling.

Musical numbers will be presented by Mrs. Wanda Winn and Mrs. J. D. Barker with Rev. Lars Hamerson assisting on the musical program and giving the benediction.

Miss Isabel Robinson is serving as program chairman for

the World Day of Prayer. Assistants are Mrs. W. H. McKee and Mrs. Glenn Gardner.

The World Day of Prayer is one of four such events sponsored by the United Churchwomen of Canyon each year. All men and women are urged to attend the services Friday beginning at 10 a.m. in the First Presbyterian Church.

A nursery for pre-school children will be provided at the church.

Before the service, a short business meeting for the United Churchwomen will be held in Fellowship Hall of the Presbyterian Church beginning at 9:30

a.m.

Mrs. Ross Russell, United Churchwomen president, will conduct the meeting and all women who are interested in co-operating with churches of the world are invited to the meeting.

Also included in the business session, will be an important discussion of plans for local members to attend the state convention of United Churchwomen in Lubbock on Feb. 18-19.

Local officers for the United Churchwomen include Mrs. Russell, president, Mrs. J. D. Barker, vice president, Mrs. K. E. Hines, secretary and Mrs. Marion Higdon, treasurer.

Beta Sigma Phi Plan Spring Rush

Chi Upsilon chapter of Beta Sigma Phi, international sorority, held its regular meeting Monday evening at the Girl Scout House with Mrs. Allen Simpson, president, presiding over the business session.

A spring rush party to be held March 4 at the home of Mr. and Mrs. Bob Henry was discussed and the party theme was announced as the Hit Parade. Sorority members and rushees will attend the party dressed as song titles.

Mrs. Allen Simpson received a carving set as first prize for the sorority participation in the Mothers March of Dimes.

The business meeting was opened with all members standing for the opening ritual which was followed by a roll call and the reading of the minutes by Mrs. Roy Francis, recording secretary. A treasurer's report was given.

A thank you was read from Mrs. Joe Abbott to the sorority members for their kindness extended during the recent death of her father, Floyd Bonds.

The Ritual of Jewels tests for fall pledges will be given soon according to an announcement made at the meeting.

The next regular meeting, Feb. 24, will serve as an election for the officer nominating committee and all sorority members are urged to attend.

Mrs. Keith Jones, leader, announced that a special meeting will be held Feb. 24th at 7:30 p.m. for a program by the Wapalanne Indian Dancers of Boy Scout, Troop 31.

Linda Bagwell and Lynn Stevens, senior scouts, led the 31 girls in a variety of games following the meeting. The game program was planned by Sharon Vance, assistant leader of the troop.

Local Jaycees Host Workshop

Bill Rogers, state director for Region 1A, was the guest speaker for an area Jaycee Workshop held at the cafeteria of Canyon Elementary School last Sunday afternoon.

Representatives from the Jaycees of Borger, Amarillo, Hereford and Happy attended the workshop meeting that was hosted by the Canyon Jaycees.

Rogers spoke on membership and pointed out the importance of every individual club having at least 20 actives. "With the recent organization of three new clubs, this region is pushing for number one position in Texas," said Rogers.

Dean Reynolds, Borger, Bill Dufur, Hereford, and Jack Fuqua each presented short speeches describing recent membership drives that their clubs had conducted. Each gave promotional ideas for membership drives and possible contests suggestions.

Richard Pruett, president of the Canyon Jaycees, stated that "the local organization did not conduct an actual membership drive but that the work of individual members had increased the Jaycee membership from 14 to 32 at the present."

The Happy Jaycee club was recognized as the newest in Region 1A and Canyon Jaycees

were commended for their assistance in extending and helping to organize the new chapter in Happy.

Richmond Payne, of the Happy Jaycees, listed upcoming events for the newly formed organization which will include their Charter Banquet on Feb. 29th at the cafeteria of Happy High School.

Payne issued an invitation to delegations of all Jaycee clubs of the Region to attend the Charter Banquet. Bill Rogers will serve as installing officer at the banquet.

Doyle Green of Borger gave a short talk on his city and the Borger Jaycees and announced that Borger is bidding for the Summer Area Jaycee Convention.

sey; Mrs. Bob Ennis, beginner; Mrs. Calvin Floyd, primary; and Mrs. A. S. Bednorz, world friends.

A valentine theme was used in decorating the banquet room. The head table featured a bouquet of red roses highlighted with cupid dolls. Hearts and cupid dolls decorated the white cloths of the other banquet tables.

Mrs. J.W. Wesley Recalls "Good Old Days" Gone By

We had about 8 inches of snow on the level with 6 foot drifts which brings to mind the "good old days" when we didn't have the modern conveniences of heat and water like we do in this year, 1964.

We had to chop wood to build a fire in a two-eyes bachelor stove and bake bread in a drum. We had to take buckets about 200 yards to the windmill and break the ice with an axe to fill the buckets with ice and water, then slip and slide on ice and snow with the heavy buckets back to the house where it had to be heated on the stove before we could use it.

We were raised in an age when our parents only went to town (Amarillo) which was 50 miles away) only twice a year for supplies. The trip took three days and they brought 10 gallons of kerosene and 1,000 pounds of flour, 2 or 3 hundred pounds of sugar and buckles of coffee, which had to be ground on a hand grinder and nailed to the window facing two or three cases of gallon buckets or Karo syrup and sometimes they brought home some dried apples and peaches.

We had our own milk cows, 6 or 8 white faces, to provide milk and butter. We butchered hogs for meat and lard. My dad hunted a lot and we had rabbits and birds, good eating in those days. I have carried feed, such as ground grain, on my horse for miles to hungry cows giving each one about a gallon of feed and then carried the young calves across the saddle in front of me to the house. We often had as many as 4 or 5 baby calves in the house behind the cook stove to keep them warm. But those days are memories and school was 5 miles away. My oldest sister and I walked until we were old enough to

handle a horse, then we rode sidesaddle with a younger child behind us.

The school was a one room schoolhouse with one teacher for about 65 students and of course we younger children didn't get much attention. The pot-bellied stove was located in the middle of the room and when it was real cold we were allowed to circle around the stove until we were warm.

Parents of students took teams and wagons and went to the Canyon to haul a winter supply of wood for the stove and the larger boys chopped the wood as we needed it. My job was to bring in chips for kindling.

We have so many blessings today, its hard to count them all, during the snow storm recently, we didn't suffer. We were in contact with the outside world by radio and television, something our parents didn't have.

Our first phone line was atop the barbed wire fence of the pasture and it was powered by two dry cell batteries, but we were very proud that when we could dial 2 shorts and one long our neighbors would answer.

Sunday afternoon singings of religious songs were very common and when a storm came up we often all spent the night with the neighbor, with people sleeping on top and under the tables.

We used kerosene lights and when we ran out of kerosene we plaited string and laid it in a bucket of tallow which gave a light when lit.

I remember one shopping trip to Amarillo, when we stopped at a creek bank and we children were having such a good time fishing that our parents left us at the creek while they went on to buy the sixth month

supply. They returned the next day and we spent another night by the creek, a terrific snow-storm developed and we all rushed for home, 30 miles, as fast as the two mules could proceed. A nail in the wagon punched a hole in the kerosene can and aside from losing the precious material--we all smelt of kerosene and were half frozen from the chill of the storm and had no way to fix a quick fire.

Eagles Dump Lockney In League Game, 74-33

Canyon continued its determined bid for a second straight District 2-AA cage crown Tuesday by blasting Lockney's Longhorns, 74-33.

It left the Eagles only one game shy of the title and a trip into the state playoffs.

The Eagles met Floydada in a crucial test at Floydada Friday night at 8:30 p.m. to decide the league champion. The Whirlwinds are only a step behind the Eagles in the race.

If the Whirlwinds manage to down Canyon it would force a playoff for the right to represent the district in playoff action.

Canyon is presently leading the clubs with a 6-1 mark. Floydada is 5-2, Tulsa 4-3, Abilene 3-4 and Lockney has completed play with an 0-8 record.

In the other district contest Tuesday, Floydada had to go into overtime before edging Abilene, 76-73.

Canyon's girls fell to Lockney, 55-48.

The score was tied only two times in the boys contest at Lockney. Lockney knotted the count at 2-2 and 4-4. But after

Floydada Holds Key To District Crown

Floydada's Whirlwinds will host the Canyon Eagles Friday in a showdown for the District 2-AA basketball title.

Canyon has the inside track going into the tilt with a 6-1 conference mark. Floydada is 5-2. The Eagles also have an outstanding 24-8 season record.

Canyon can take the crown outright by downing the Whirlwinds. If Floydada should beat the Eagles--and it is certainly capable--a playoff game would be necessary to decide who would represent the district in bi-district action.

The winner of District 2-AA will meet the District 1-AA winner. Stinnett all but has the crown wrapped up in 1-AA.

In the first meeting of Floydada and Canyon, the Eagles held a 20 point lead at one time. But a Whirlwind rally almost produced a win in the waning seconds. However, Canyon slipped past Floydada, 63-62.

Canyon's girls had just as tough a time in edging Floydada, 42-41.

The Eagles will rely on a well-balanced scoring attack, good shooting and a better than average defense in hopes of beating Floydada.

Canyon journeyed to the state playoffs in Austin last season. State champion Buna tripped the Eagles in the finals, 47-41.

Four of Coach Allen Simpson's cagers are hitting better than 50 per cent of their shots

Skip Moore leads the parade. He has connected on 17 of 26 tries for a sparkling 65 per cent. He has a 6.1 scoring average.

Eddie Poole has dropped in 35 of 61 attempts from the field for 57 per cent. He is second in scoring with an 11.0 average.

Steve Burgess, scoring at a 9.0 clip, has drilled the nets on 25 of 45 tries for 56 per cent.

Bobby Evans is the fourth above the 50 per cent mark. He has made 25 of 48 tries for 52 per cent and has a 10.1 scoring average.

Leading scorer Don Breitling isn't far behind. He has popped in 39 of 83 tries for 47 per cent. His scoring average is 13.3.

Jim Whinnery is scoring at a 7.7 pace, followed by Jody Richardson 4.7, Ronnie Bacon 1.5, Dennis 1.2 and Alex de Schweinitz 1.0.

Canyon has been rolling along with a 62.3 average per contest. League opponents have made 45.9 points per game.

As a team, the Eagles have made 180 of 370 attempted field goals for a fine 48.6 per cent.

So, if you basketball fans would like to watch two fine basketball games go to Floydada Friday.

Student Found Dead In Dormitory Room

An autopsy remains incomplete on a 19-year-old freshman student who died in his dormitory room Tuesday at West Texas State University.

Donald John Sears of Pampa, died of undetermined causes Tuesday morning in Stafford Hall at WT. Randall County Sheriff L. S. Johnston said an investigation into the cause of death is being conducted.

W. A. "Bill" Wilson, acting coronor, ordered an autopsy after the body had been taken to Nebbett Hospital shortly after noon Tuesday. Wilson set the time of death at near 10 a.m. Tuesday.

Jon Pitts, also of Pampa and roommate of Sears, gave She-

riff Johnston this account of the activities leading up to the death.

The two boys had driven to Amarillo Monday and had returned to the dorm about 1:30 a.m., Tuesday. They decided to sleep late and Pitts woke at 10 a.m. Tuesday. He noticed nothing unusual about Sears and left him to sleep until a little before noon.

Pitts attempted to wake Sears but could not arouse him. He gave artificial respiration and asked another boy in the dorm to call an ambulance and a doctor.

The body was taken to Northwest Texas Hospital in Amarillo for an autopsy, and Wilson said results would not be known for at least three or four days.

Donald John Sears was born Dec. 20, 1944, in Newton, Kansas.

He was a member of the First Methodist Church and was a student senator at WT.

Funeral services will be conducted today (Thursday) at 3 p.m. in the First Methodist Church in Pampa. He will be buried in Pampa following the services.

Survivors include his parents, Mr. and Mrs. Joe A. Sears, and one sister, Carole of Pampa, and an uncle, Henry Sears of Hereford.

Salad Recipes Offered By Cook Of The Week

By LORENA MILLER

A lady who spends her time preparing menus and cooking for weekly civic club luncheons, Mrs. Rae M. Walters is sharing a variety of salad and relish recipes with our readers this week.

The large house at 1718 4th Avenue is the residence of Mrs. Walters who lives on the ground floor. Upstairs bedrooms, and basement apartments of the house are rented by college boys.

"I allow the boys kitchen privileges, though I don't prepare their meals," says Mrs. Walters. "In fact, I seldom do much cooking at home."

Mrs. Walters does her cooking for the civic club luncheons each week. She prepares the luncheon meals for meetings of the Rotary, Kiwanis, and Lions Clubs.

A kraut salad that she served at one of the recent luncheons was such a hit with one civic member, D. J. Kievit, that he asked Mrs. Walters for the recipe which he took home for his wife to prepare.

The kraut salad recipe is

just one of many such unusual and delicious recipes that Mrs. Walters has collected during the years she has cooked for luncheons.

Mrs. Walters has two living children including Mrs. Fern Kieser of Mineral Park, California. Prior to her marriage, Mrs. Kieser was a student at West Texas State University. The Kiesers now have three children.

A former student at Wayland Baptist College, Mrs. Walters' son, Richard, lives in Amarillo with his wife and three children. The two oldest children of Richards are step-children and call Mrs. Walters, "step-nana".

Mrs. Walters had two other sons, Kenneth and Gene, both deceased. Kenneth was killed in a plant explosion at Pampa in 1954 and Gene died in 1960.

Before moving to Canyon in 1935, the Walters lived at Happy, where Mrs. Walters was a public seamstress.

"I've always enjoyed sewing, but I just don't seem to have enough time for it now," says Mrs. Walters. "My spare

time is filled with reading and watching some television shows."

Aside from her other activities, Mrs. Walters is a member of the First Methodist Church and serves as president of the Wesleyan Service Guild and secretary for the Condron Sunday School Class.

She is the associate conductress for Canyon's Lodge No. 105, Order of the Eastern Star. Other clubs she belongs to are the Variety Ring, the Palo Duro Mother-in-Law Club where she is treasurer and the Social Pioneers, which she serves as secretary-treasurer.

From her recipe collection, Mrs. Walters shares the following salad and relish ideas for our readers:

Kraut Salad
1 cup celery
1 small onion
1 small green pepper
Chop fine and combine with 1 No. 3 can sauerkraut, that has been chopped and drained.

For dressing: combine 1 cup sugar and 1/4 cup vinegar.

Heat dressing and pour over kraut mixture. Let stand for several hours before serving.

Mrs. Rae M. Walters is shown preparing menus for the civic club luncheons which she prepares each week including the Lions, Kiwanis

and Rotary clubs. Mrs. Walters is sharing several salad and relish recipes from her collection with our readers this week.

New Edition Ready Plains Researchers Featured In Review

The Panhandle-Plains Historical Review for 1964 is now available in hardback covers, suitable for library use or as a permanent item for collectors, says Boone McClure, curator of Panhandle-Plains Historical Museum.

Copies of the new edition are available at the museum. Price is \$5 each—the same as for the original paperbound volume published last December.

The 1964 Review features editorial work by Dr. Lowell H. Harrison, of the history department at West Texas State University, and by Ernest R. Archambeau of Amarillo, an authority on Plains history before the development of the cattle industry.

Dr. Harrison's contribution is an explanatory essay and a review of depositions given by several survivors of the Indian attack on Adobe Walls in 1874. The depositions, given in connection with a lawsuit against the United States to collect damages resulting from Indian warfare, were made by James H. Cator, Charles Rath, Andrew Johnson, R. M. Wright, James Langton and W. B. Masterson.

All the deponents either participated in the Adobe Walls fight or arrived on the scene shortly after it occurred. The depositions were found by Dr.

Harrison in the U. S. Court of Claims Section of the National Archives and Records Service in Washington.

Archambeau's contribution is a brief introductory essay and the text of Capt. Wyllis Lyman's official report on the Indian fight that has come to be known as the Battle of Lyman's Wagon Train.

The fight occurred Sept. 9-14, 1874, when an Army supply train escorted by a company of riflemen was attacked by bands of Comanches and Kiowas as it crossed the divide between the Canadian and the Washita rivers.

"The Battle of Lyman's Wagon Train...was the most prolonged Indian battle in Panhandle history and one of the most violent," Archambeau says. "At no other time during the extensive campaign against the Indians in 1874 did so large a unit find itself in such difficulty."

The Review also includes a summary account of the Battle of Adobe Walls by G. Derek West, a British school teacher who interested in American history as a hobby is marked by special knowledge of the West.

Going somewhere? Or been? The Canyon News wants to know about it—and so do its readers.

Federal Crop Insurance Is Now Available

The USDA has announced that Federal All-Risk crop insurance will be available to grain sorghum farmers in Randall County for the 1964 growing season.

All-Risk crop insurance this year provided farmers with over \$31 million worth of protection on money spent to produce crops in Texas. Nearby Castro County accounts for nearly \$1 million of this figure. Nearly \$2 million was paid last year to Texas farmers due to excessive moisture, hail and insects.

More than \$25 million was paid out last year nationally by the Federal Crop Insurance Corporation to replace crop investments lost as a result of crop damage.

State FCIC director, Ben A. Jordan, Jr., announced that representatives are now accepting applications in this county for a limited time on grain sorghum and that additional information is available at the FCIC district office in Lubbock.

Nothing Stops Fire Department's Weasel During Huge Snow Storm

BY FRED TRIPP

Tired of deep-snow car trouble?

Looking for transportation that can't be bogged--or even slowed down--by the biggest drift between here and the North Pole?

Then get yourself a Weasel--the jitney that carries its road with it.

The Weasel is a tracked vehicle built to U. S. Army specifications for hauling people and freight over snow, sand, and mud.

Last September, members of

the Canyon Volunteer Fire Department counted their loose change and bought a Weasel from an outfit called Texas Surplus Property. They wiped off the cosmoline, put gas in the tank, loaded a cargo of ropes, chains, blankets, stretchers, food and water. Then they waited for an emergency.

Last week it came--one of the biggest, roughest, toughest snowfalls in the history of the Panhandle.

And as nearly every wheel in Randall County spun to a halt or slid off icy roads or smothered in deep drifts, the Weasel came into its own. Cruising serenely at 25 miles per hour, it moved over clogged highways and byways, city streets and farm roads, succoring stalled cars and people.

Reporting Friday on activities of the preceding four days Capt. Joe Rice estimated the Weasel and its crew had assisted about 300 cars and trucks and handled at least one emergency that involved a 35-mile run along fence lines to deliver medicine to an isolated ranch home.

"As of today," said Arthur Plain, driver for the Canyon department, "we've racked up 321 miles since the snow got dangerous."

Beginning Monday a week ago and continuing until Friday, calls for assistance came around the clock at the Canyon fire station and the Randall County sheriff's office.

The medicine run was a delivery to a home on the Tom Blasingame ranch about 35 miles southeast of town. Another run, a semi-emergency, was made to bring a mother and four children from a farmhouse east of Canyon, where they had gone on a visit and been trapped by the snow.

"But it was easy with the Weasel," Rice said. "On those country roads the snow had drifted so high that only a tracked machine could get through, but we made it without any trouble."

Manning the Weasel in shifts were Rice, Plain, Fire Chief Bill Sternberg, Jim Christopher, Roland Hicks, D. B. Lowes, Jack Jennings, Bill Dugan, Delbert Davis and Louis Davis. All but Rice and Plain are volunteer members of the department.

Rice undertook Monday to explain the mechanical basis for the Weasel's remarkable performance in weather that stalls ordinary vehicles.

"The big advantage is the

track, and the way the load is distributed," he said. "The Weasel weighs about 6,000 pounds, but the track suspension is engineered so that the load works out at only three pounds per square inch. Compare this to the weight concentrated on the tread of a car or truck tire, and you'll see how we can 'float' on surfaces that would otherwise give way."

"Another advantage is the transmission system. The Weasel is geared 'way down; with conventional clutch and shift arrangement. This gives us tremendous pulling power. Another thing, the machine steers like the old Caterpillar tractor, with a lever for each track, and it can turn around by pivoting on one track while the other track does the work. This is a big advantage in working tight corners."

The Weasel is powered by a 90-horsepower, 6-cylinder, water-cooled engine that exhausts through a topside pipe that can't be clogged by snow or mud.

"All together, the machine is designed so that you just can't bog it down, unless you drive it into a hole six feet deep, with sides straight up," Rice said. "We paid \$250 for it, and we think it's proved to be worth every cent and more. Some people smiled when we said we needed a Weasel, but I'll bet we've already hauled some of them out with it."

Biggest problem in rescuing stalled cars was "finding some place to hook on," Rice said. "These new cars--they don't have a front axle, and about all you can do is use the bumper and go easy. Sometimes, too, we had to dig, mainly to keep from tearing things up."

Cleaned up and looking spic-and-span, the Weasel rested Friday in the driveway of the Canyon station, ready for the next emergency.

Meanwhile, The Canyon News learned that the community's spotlight rescue team is itself in need of a slight rescue.

Hampered by lack of a two-way radio, the Canyon volunteers pooled contributions from grateful motorists whom they had assisted and made the down payment on equipment to keep the Weasel in touch with department headquarters and the sheriff's office.

The equipment has been installed, and all that remains is to meet the \$300 bill. The department has already paid about \$145, but has come on hard times.

So--how about it?

All you folks who were helped for free--and anybody else who's interested in the efficiency of the Fire Department Emergency Unit--how about lending a financial hand to the boys?

Members of the department are too bashful to ask, so The Canyon News is speaking for them.

The address for all contributions is Canyon Volunteer Fire Department, 1509 Third Avenue.

How about it?

Local Men Attend Seminar

Joe Wieck of Umbarger and Victor Harman of Happy were among directors of the Mid-Plains Rural Telephone Cooperative attending a two-day management seminar in Washington, D. C. recently.

The men attended the seminar which was sponsored by the National Telephone Cooperative Association in Washington.

The seminar was designed to improve management techniques in the states' rural telephone systems and was attended by more than 40 directors, managers and key employees of rural telephone systems in the United States.

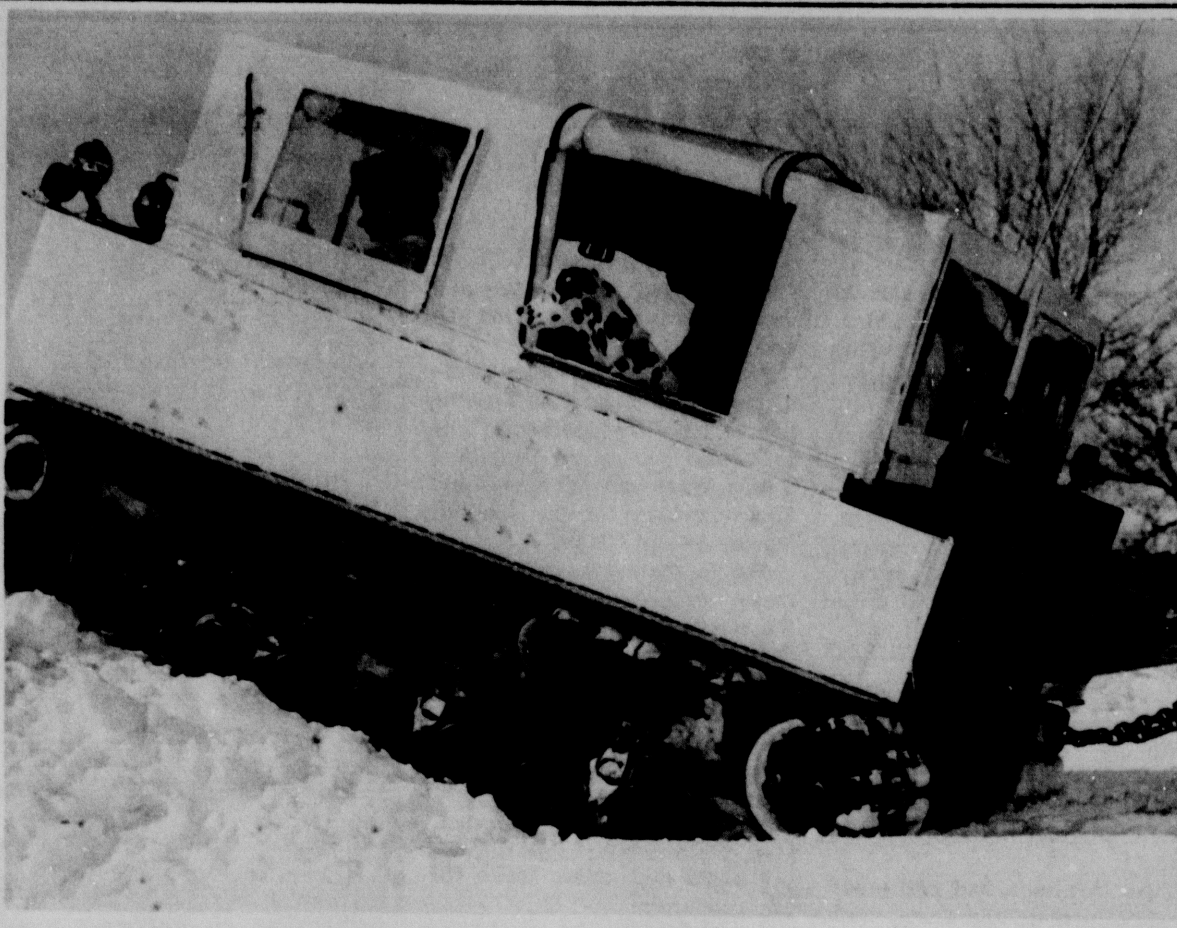

The annual convention of NTCA was held three days following the seminar. Leonard Boehning of Canyon and Wieck and Harman attended the convention from this area.

Man Falls On Ice, Breaks Hip

George Dudley Moore, 74, was injured Friday morning as a result of a fall in downtown Canyon.

Mr. Moore, father of Dr. George Dudley Moore, slipped on ice and was taken to Neb-leth Hospital.

He received a broken hip and was operated on Sunday. His condition was reported as good.

THE WEASEL, tracked vehicle of the Canyon Volunteer Fire Department, takes a 60-degree snowbank without changing gears. At the controls is Capt. Joe Rice, while Arthur Plain mans the two-way radio and Smokey, the firehouse pup, enjoys the ride.

Members of the Canyon High School choir are trying desperately to earn enough money to attend the Tri-State Music Festival in Enid, Oklahoma, which will be held later in the spring.

In order to raise money the choir members have set up an odd job service available to all Canyon residents.

"We will baby sit, iron, clean house, do yard work, shovel snow, well, just any kind of odd job," said Nancy Davis, choir member.

A chili supper has been set for Tuesday, Feb. 18, in the Presbyterian Church from 5 to 8 p.m. sponsored by the choir.

Other activities in the future are a candy sale and several bake sales.

In order to contact a member of the choir for an odd job, call Nancy Maxwell at OL 5-4052 between 12:30 and 2:30 p.m.

He was a retired rancher and farmer at the time of his death. He was a member of the First Baptist Church in Canyon.

Mr. Bourland was killed almost instantly when a Santa Fe freighter smashed into the cab of the pickup he was driving.

Authorities said the Randall County ranch hand apparently never saw the train which struck him as he was backing his pickup across the railroad crossing.

Mr. Bourland had driven to a ranch two miles east of Amarillo Air Force Base in order to pull his pickup out of a snow-drift. The pickup had become stuck Tuesday evening.

Three men were at the scene at the time of the accident. They had helped Mr. Bourland get his pickup out of the snow drift prior to the fatal accident.

Construction Off To Good Start In '64

Construction in Canyon during January got off to a running start for 1964, according to E. A. Collie, city building inspector.

Residential, commercial and other building permits issued here last month totaled \$130,000. Of this, five residential permits totaled \$83,000, two commercial permits totaled \$36,570, and permits for eight airports totaled \$11,330.

Residential permits included RAR Homes, 505 Taylor Lane \$27,500, and 1209 Hillcrest, \$21,000.

Largest commercial permit was for Field Service Farm Bureau building at 1712 Fifth Ave., \$31,980.

"If we could keep up the pace, we'd be on the way to a record," Collie said, "but I'm afraid the weather has just about finished any hope for February. We're hoping, though, that we'll see a speedup during the spring months."

Other delegation members were seated on the house floor and in the visitors' gallery. Representatives of the Llano Estacado Council attending included Walter Brantley, Mike Goh, both of Amarillo, and Louis Machuca, sponsor. Randy Warren, Boy Scout Troop 31, was unable to attend the ceremonies.

West Texas State Continues Towards Winning Year

BY JOHN SHIELDS

West Texas State may get its wish for what it would consider a successful basketball season—a break even record.

The Buffs tripped invading Eastern New Mexico University, 89-82, Thursday and then edged McMurry, 76-70, at Abilene Saturday.

Both were impressive victories for West Texas' fast improving club.

West Texas has shown vast improvement on the boards, ball-handling, in shooting and working for the better shots in the past few games.

Eastern New Mexico absorbed a 61-41 drubbing on the boards while McMurry took the backseat in rebounding, 38-18.

The Greyhounds from New Mexico managed to take a 2-0 lead in the opening seconds. David Shearod knotted the count at 2—all only seconds later.

From there until the end of the first half the Buffs trailed. With 15:28 remaining in the first half the Greyhounds held their biggest lead, 15-8, on a field goal by Joe Adams. They held the same margin one time early in the second half.

West Texas rallied to within two points of the visitors at 12:52 in the first half, 20-18. The Buffs tied the score at 38-38 on a 25 foot jump shot by Marvin Mitchell at 3:39.

ENMU took a four point lead at halftime, 46-42.

At this point Mitchell had dumped in 10 points and Scottie Pierce 7 for the Buffs. Esly Williams was high for the Greyhounds with 14 points.

West Texas had put up 51 shots from the field and made 20 while

the Greyhounds had connected on 19 of 35 tries.

The Buff's defense stiffened going into the final 20 minutes of play, however, to hand ENMU the setback.

Gail Simpson put West Texas in the lead for good on a 25 foot jump shot, 56-55, with 15:24 left to be played.

The Buffs held an eight point lead most of the remainder of the contest. At 3:43 they led by ten points, 80-70. Their largest lead was at 85-74 with 41 seconds remaining.

West Texas connected on 37 of 87 field goal attempts for 42.5 per cent. It dropped in 15 of 23 charity tosses for 65.2 per cent.

The Greyhounds dumped 30 of 62 tries from the field for 48.4 per cent and 22 of 34 free tries for 64.7 per cent.

ENMU had suffered an 87-72 set back at the hands of the Buffs earlier in the season.

West Texas produced a well-balanced scoring attack in downing the Greyhounds by placing six players in double digits. Leading the parade was Scottie Pierce with 19 points. James Strahan chipped in 16, Mitchell 12, Kirby Pugh 11, Frank Schaffer and Simpson 10 each, George Scott 6 and Shearod 5.

Fine dribbling and ball control were displayed by McWilliams, Strahan and Shearod in the waning moments.

In the contest against McMurry's Indians, West Texas ripped the nets for a blazing 72 per cent in the second half. The Buffs connected on 29 of 47 field goal attempts during the entire contest for a hot 61 per

cent. The Indians pumped in 28 of 53 field goal tries for 51.9 per cent.

West Texas trailed by ten points at one time during the first half. At halftime the Indians led, 47-39.

The Buffs placed four in dou-

Basketball For Girls Is Wanted

A unanimous vote to retain girls basketball on the school athletic program was the result of a meeting of the Eagle's Booster Club Monday evening.

Roscoe Richardson, president, conducted the business meeting which was attended by 18 parents of junior and high school students.

The meeting resulted in a full airing of complaints and recommended changes and goals with the final request that all parents of school age girls interested in objectives of the group, plus any other interested person, attend a special meeting at the High School on Tuesday, Feb. 18, at 7:00 p.m.

The special meeting will precede the regularly scheduled meeting of the School Board and the group will present its position and views on the subject at the School Board meeting later that same evening.

At the meeting Monday evening, the group favored equal opportunities in athletics for girls and boys and went on record as favoring the retention of girls basketball and opportunities in training and actual scheduled competition with other high school teams in the varsity years.

An appropriate increase in the athletic staff was suggested. The increase would benefit the whole athletic program, but would particularly raise girls basketball from its relative state of subordination in comparison with athletic programs for boys.

The main unanimous recommendation made by the Booster parents was that all athletics, for boys and girls, be conducted on a basis of equal opportunity in training programs and actual competition.

Girl Scout Box Supper Postponed

The win left West Texas 6-4 for the season.

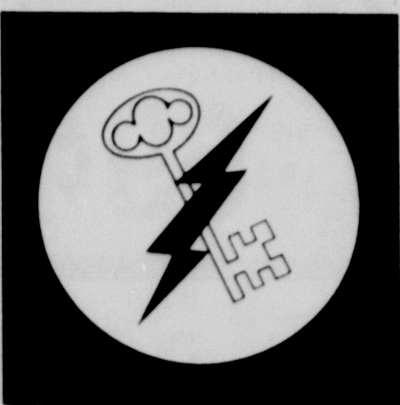

New Mexico led only one time during the contest, that after a free toss in the opening seconds. The count was knotted only one time, also. That was at 2-2 with 18:22 left in the first half.

From there until the final buzzer the Stompers gradually increased their lead. Midway through the first half West Texas led by 12 points, 22-10.

At halftime the score was 46-26, in favor of the hosts.

With 2:19 left to be played the Stompers extended the margin to 40 points at 88-48. They held a 44 point lead seconds later.
